GVSU STUDENTS AND ALUMS
PRE-GSA FIELD TRIP
SAN JUAN ISLANDS

OCTOBER 16-18, 2014
(GSA IS IN VANCOUVER, CANADA OCT 19-22)

We will:

- Explore the glacial history and bedrock geology of the San Juan Islands (roughly 1 ½ hours south of Vancouver).
- Experience the amazing scenery and wildlife (Killer Whales and Other Critters) by car, ferry, and hopefully sea kayaks!
- Stay at a vacation rental house located centrally in the San Juan Islands so we can take day trips
- Eat amazing Pacific Northwest seafood and maybe even collect some of our own (clams)

Space is limited so we need a commitment and deposit of $20 by April 25th so that we can plan accommodations and the trip. Sign up and pay the deposit in the geology office (Janet Potgeter). If you have questions e-mail Peter Wampler or Peter Riemersma.
